

## Terms and Conditions for Additional Speed Service Provision

By activating Additional Speed service with Trio Personal or Trio Premium packages the subscriber receives additional speed by selecting an option of Additional Speed service as an addition to the basic speed determined by his/her tariff plan. Additional Speed service is provided by following 3 options:

1. Additional speed 1 - Subscriber receives 5mb/s Internet speed as an addition to his/her tariff plan's basic speed with the 250 AMD monthly fee including VAT.
2. Additional speed 2 - Subscriber receives 10mb/s Internet speed as an addition to his/her tariff plan's basic speed with the 400 AMD monthly fee including VAT.
3. Additional speed 3 - Subscriber receives 20mb/s Internet speed as an addition to his/her tariff plan's basic speed with the 600 AMD monthly fee including VAT.

The activation of the same option of the service "Additional Speed" for several times simultaneously is impossible.

The activation of several options of service "Additional Speed" simultaneously is impossible.

The overall internet speed, provided by GNC Alpha CJSC and formed by basic and additional speed services, cannot exceed 99 MB/s.
